

Shop Coffee Roasters Machine Technical Specification

Product Code	Lion Cr6
Capacity	6kg recommended - Max. 7,2 kg Drum Capacity
Light Roasting Time	9-12 minute
Light Roasting Capacity kg/hr	43 - 30kg
Dark Roasting Time	11-15 minute
Dark Roasting Time kg/hr	36 - 24kg
Engine Power and Features	Monophase Electric Three-Phase Motors Operate
	4pc Three Phase Motor
	50 / 60 Frequency (Hz) Compatible
	110-220-230-380-415 Voltage Compatible
	1,48kW/Hr Power Consumption
Burner System	114.000 btu/h (Polidoro and Sit Brand)
Number of Fans	1pc Independent Cooling Fan
	1pc Independent Shell Separation and Hot Air Transmission Fan
Heating System	Thermal Transfer
Control	2pc Digital Temperature Control Systems
	Air Control System
	Gas Control System
Standard Equipment	Shell Storage
	Sample Observation Glass
	Sample Spoon
	Timer
	Audible Warning System
	Artisan and Cropster Automation Ready Installation Connection
	Simultaneous Roasting and Cooling (4 Engine Power)
Emergency Stop Button	
Care	Large Capacity Shell Storage, Cooling Area, Shell Collector Drawer Compartment Easy Maintenance and Cleaning
Safety Standards and Certificates	Excellent Thermal Insulation
	CE Gas Burning Devices / EU Machine Safety Regulation
Fuel Type	Naturel Gas /LPG / Propane / Electric
Material	304 Grade Stainless Steel and Chrome
Electric Panel	Siemens and Schineder Brand Electrical Installation
Warranty	2 years
Exhaust Outlet Diameter	130 mm
Dimensions (W - D- H) (cm)	138x178x189 cm
Installation (W - D- H) (cm)	238x278x214 cm
Weight	390kg
Optional Equipments	Green Coffee Conveyor
	AfterBurner
	Destoner
